1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor suggests a magnetic head suspension assembly having combination structural limitations including a flexure for supporting a magnetic head; a load-bent portion for generating a load for pressing said magnetic head to a magnetic disk; a load beam for transmitting the load generated by said load-bent portion to said flexure; and a base portion connected to said load-bent portion, in which said base portion has a main body and an embedded body embedded in the main body so as to be positioned in a region in which the main body and said load-bent portion overlap with each other, said main body is made of a material having a specific gravity lower than that of said embedded body, said embedded body is made of a material which can be welded to said load-bent portion, and said load bent portion and said embedded body are welded to each other to thereby join the load-bent portion and said base portion to each other, all as set forth in claims 1 and 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
